

Call for Papers

IFIP WG9.4 2019

The Working Group 9.4 of the International Federation for Information Processing (IFIP) gathers scholars and practitioners that deal with the issue on how Information and Communication Technology (ICT) affects social development. The theme for the upcoming 2019 IFIP WG 9.4 conference is: **“Strengthening Southern-driven cooperation as a catalyst for ICT4D”**.

With the proliferation of ICT related projects to support development, the Southern countries are now emerging as important innovators and actors in the global development and adoption of ICT for the community and economic growth. A good example can be seen with how Kenya has been leading the world with mobile payment for several years. The mobile payment (such as Mpesa and Airtel money) has supported micro financing services and transformed economic activities and lives within the local communities. Such effect offers an exciting setting for reverse innovation whereby lessons learned in ICT4D could offer rich insights for IS research in general. Furthermore, strengthening a Southern-driven cooperation promotes ICT initiatives and research carried for, in and by developing countries.

The conference theme of **“Strengthening Southern-driven cooperation as a catalyst for ICT4D”** seeks to stimulate and encourage critical discussions on the different facets of Southern-driven cooperation, its promises, potential, for creating a better world, and the challenges we face in achieving the promised potential.

IMPORTANT DATES

main conference

- 1 Full Paper submission **3rd September 2018**
- 2 Notification of decision to authors **17th December 2018**
- 3 Deadline for final (camera-ready) papers... .. **4th February 2019**
- 4 Conference dates **May 01-03, 2019**

NOTE: All paper submissions are through
<https://easychair.org/conferences/?conf=2019ifipwg94>

CONFERENCE TRACKS

We invite those interested in participating to submit to one of the following tracks (see the conference website for more details):

- 1 Digital Platforms for Development.
- 2 FinTech and Development.
- 3 ICT4D for the Indigenous, by the Indigenous and of the Indigenous.
- 4 Recognizing African Expression of Tech.
- 5 Harnessing agriculture, land administration and public financial management for ICT4D.
- 6 ICT for Displaced Population: How it helps? How it hurts?
- 7 Communities, ICT-Enabled Networks, and Development.
- 8 Pushing the boundaries - New research methods, theory and philosophy in ICT4D.
- 9 Southern-Driven Human-Computer Interaction.
- 10 Locally developed process and method innovations in ICT4D.
- 11 Sustainable ICT, Informatics, Education and Learning in a turbulent world - “doing the safari way”
- 12 Early Feedback for Early Career Researchers.

“ The 15th International Conference on Social Implications of Computers in Developing Countries ”

Dar es Salaam, Tanzania

May 1st -3rd 2019

early career research workshop

- 1 Abstract Submission... .. **20th July 2018**
- 2 Notification to authors **30th July 2018**
- 3 Workshop dates... .. **30th April 2019**
